

Addproduct.jsp

The screenshot shows the Eclipse IDE interface with the following components:

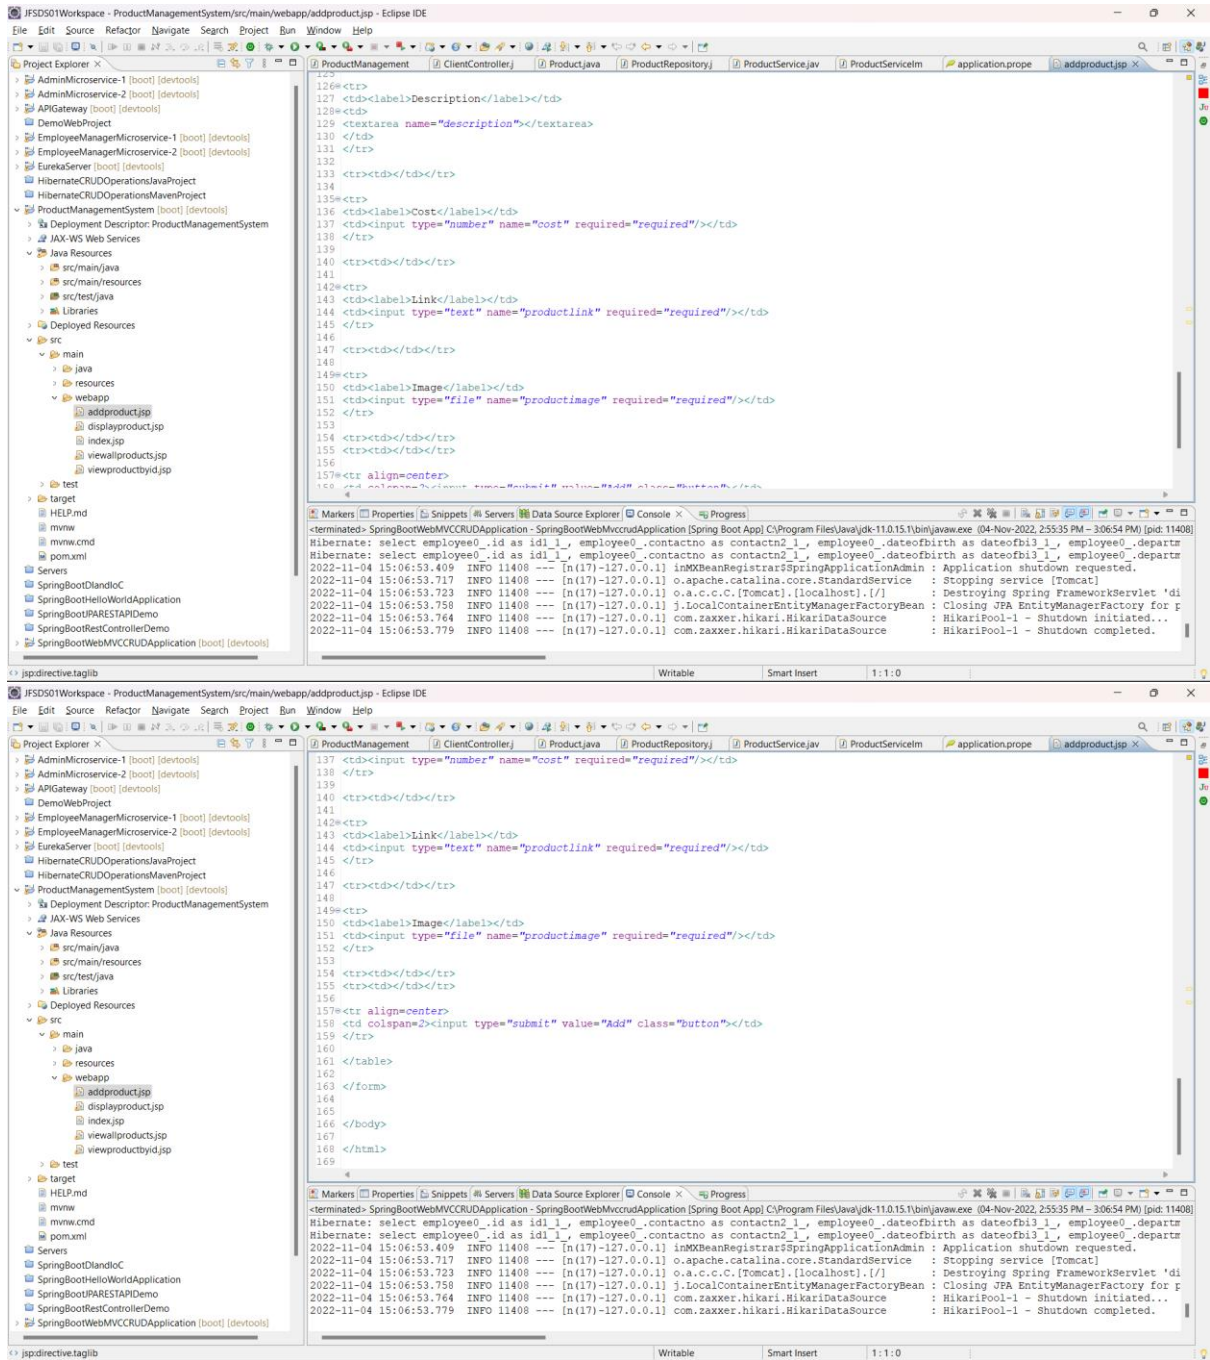

- Project Explorer:** Displays the project structure for 'ProductManagementSystem'. The 'src/main/webapp' directory is expanded, showing 'addproduct.jsp' as the active file.
- Editor:** Displays the content of 'addproduct.jsp', which is an HTML form for adding a product. The form includes a category dropdown menu and a name input field.
- Console:** Shows the application's startup logs, including messages from Spring Boot and Tomcat, indicating that the application has started successfully.
